13. Cosmic Turtle Moon:
Cosmic Turtle brings thirteenth moon of presence.
How can I expand my joy and love?
Cosmic Turtle endures presence.
Now my key cosmic action is to transcend.
Now I have completed the Annual Planetary Service Wavespell path of human sovereignty.

The current twelve month calendar is made of months of unequal measure:
31 days, 28 or 29 days, 31 days, 30 days, 31 days, 30 days, 31 days, 31 days, 30 days and 31 days.

If you have a crooked standard of measure, and follow it because your parents were also following it, isn't it still crooked?

Time is the atmosphere of the mind, a mentally perceived phenomenon. So, if you have a crooked or inaccurate measure of time, you will create a crooked mind. Change the calendar. Change the time. Change your mind.

This is not the first time people have used a 13 Moon calendar. The Druids kept a "tree" calendar, a count of 13 moons of 28 days each, plus one day. They were not the only ones to keep such a calendar, the Incas, ancient Egyptians, Mayans, and the Polynesians all kept a 13 moon/28 day count. The Lakota Indians kept a 13 moon/28 day count based on the keya, or turtle, since the turtle has 13 scales on its back. Modern science has discovered that even dolphins keep time with 13 sets of 28 grooves along their teeth!

13 Moon/28-day Calendar. Equal Standard of Measure.

Each Moon has four seven-day weeks.

Did You Know . . .

- ... The moon circles the earth thirteen times in one year?
- ... In the current global standard calendar, a month doesn't correspond to one natural cycle?
- ... The word "calendar" comes from the Roman word, "Calends", which was the name of the account book, the book recording monthly debts and bills to be paid?
- ... Time isn't money?
- ... September means seven, but is the ninth month?
- ... March is named for Mars, the Roman God of War?
- ... July and August are named for Julius and Augustus Caesar?

By blindly accepting this irrational disorder of names, do we not predispose ourselves to accept irrational disorder in commonplace things around us, and even within the fabric of our society, seeking but a superficial treatment of symptoms while ignoring the roots?

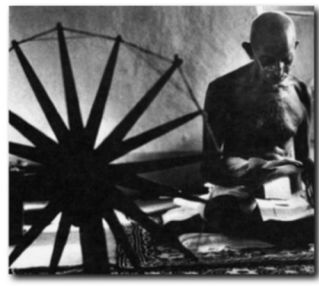

Current Twelve Month Calendar. Months have unequal units of measure.

If today is Tuesday, June 1st, what day of the week will July 1st be? August 1st? November 1st?

If you were to build a house, wouldn't you use a ruler of equal measure?

New Time Peace Movement. It's Up to You.

"The introduction of manual training will serve a double purpose in a poor country like ours. It will pay for the education of our children and teach them an occupation which they can fall back on in later life, if they choose, for earning a living. Such a system must make our children self-reliant. Nothing will demoralize the nation so much as that we should learn to despise labor."
- Mahatma Gandhi

Immediately following the events of the 9-11, world affairs took a turn toward total war. When national security becomes the most prominent issue in a nation's affairs, there must be a call for non-violent resistance to nuclear warfare, injustice and the degradation of the environment.

How are we to transform the power struggle - and environmental deterioration - which threatens the entire future of humankind? The root of the problem is that we live in a time of war. End the time of war and we can enter a time of peace.

If you have heard the message of the New Time, then it is your time for action. You can volunteer your time to the New Time Peace Movement or donate online at www.tortuga.com

"Somehow we must transform the dynamics of world power struggle, which no one can win, to a creative contest to harness man's genius for the purpose of making peace and prosperity a reality for all nations of the world."
Martin Luther King, Jr.

The Elegant Simplicity of the New Time.

The Thirteen Moon/28 day calendar is a perpetual, harmonic calendar. It is called a Moon Calendar because it is based on the female 28-day menstruation cycle, which is also the average lunar cycle. The measure of the moon from new moon to new moon is called the synodic cycle and is 29.5 days in length. However, the sidereal lunar cycle which measures the moon from where it reappears in the same place in the sky is only 27.3 days in length. So 28 days is the average lunar cycle.

In actuality the moon goes around the Earth thirteen times a year. This means that the 13 Moon calendar is a genuine solar-lunar calendar which measures the Earth's orbit around the sun by the lunar average of 28 days. Thirteen perfect months of 28 days = 52 perfect weeks of 7 days = 364 days. The 365th day is called the **Day Out of Time** because it is no day of the week or month at all. This day which falls on the Gregorian correlate date of July 25 is a day for forgiveness and the artistic celebration of life and freedom.

The synchronization or new year's date of the 13 Moon calendar is July 26, and corresponds to the rising of the great star Sirius. This makes the 13 Moon Calendar a tool for harmonizing ourselves with the galaxy.

One of the great advantages of the 13 Moon Calendar is that day/date calculations are amazingly simple. The first day of every Moon is always a 13 Moon Dali. The last day of every Moon is always a 13 Moon Silio. The Gregorian calendar makes day/date calculations very difficult because the months are of unequal measure so the days and dates of the week vary from month to month and year to year. The Gregorian correlate dates are found at the bottom of each 13 Moon date. Find your birthday, every year it will always be on the same day of the same 13 Moon week.

As you can see in the image above the 260 day Harmonic Module is made up of two wheels, a wheel of 13 tones and a wheel of 20 seals.

There are 260 different possible combinations. Each day of the 13 Moon Calendar has a corresponding seal and tone.

If you look on the calendar at July 26 for this year you will see the image above.

Time is a frequency - the frequency of synchronicity.

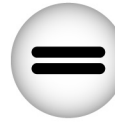

The 13 Moon Calendar is truly unique because it is synchronized with the **Harmonic Module**, the universal 13:20 timing frequency. Originally used by the Maya, the most sophisticated timekeepers ever known, the Harmonic Module consists of **20 icons or Solar Seals and 13 Galactic Tones**. The resulting 260 permutations combined with the perfect harmony of the 13 Moon Calendar give each day a unique quality. The two cycles - 13 Moons/28 days and the 260-day Harmonic Module perfectly mesh every 52 years!

In the center of the Harmonic Module is a black pattern of 52 "Galactic Activation Portals." See if you can find the sequence of 13 sets of four, counting from the four corners inward.

Notice that the numbers of each set of four equals 28. 13 sets x 28 = 364, the number of days in the 13 Moon Calendar!

The Thirteen Galactic Tones

The thirteen tones are numbers based on the dot and bar notation system, or **Galactic Notation**. In this notation a dot equals one and a bar equals five.

This is why the **==** refers to Tone 10, because there are two bars. Zero, represented by **⊖** represents both zero and twenty.

- One Dot = 1
- One Bar = 5

The 13 Moon Calendar itself can be drawn as a Wavespell. In this Wavespell each Kin is 28 days, or one perfect moon.

By using this Wavespell, we see that June 26 is the last day of the twelfth or Crystal Moon.

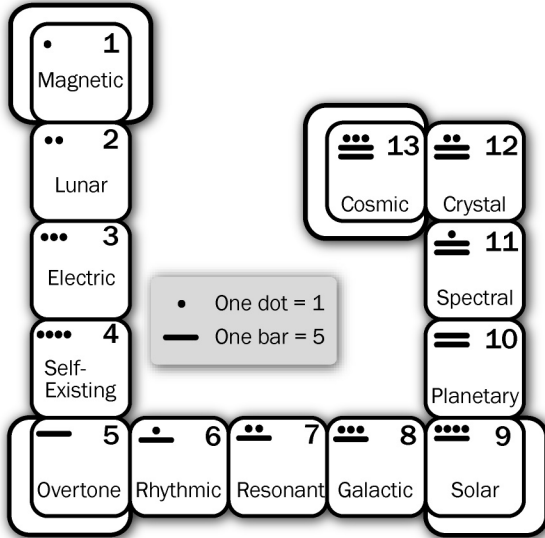

13 perfect moons of 28 days each makes 364 days in all. The 365th day becomes the Day-Out-of-Time, which is a day outside of the normal days of the week, as shown above.

-10-

The Wavespell

The 13 Moon Calendar measures several cycles of time in addition to the standard seven day week. One of the most interesting of these cycles is called the Wavespell.

The thirteen tones that we introduced earlier arrange themselves in the form below. The Wavespell is a cycle of thirteen. Each of the thirteen blocks shown below is called a Kin. In the simplest use of the Wavespell, each kin equals one day. This gives us a Wavespell of thirteen days. As you will learn later, a Kin can also be a week, a moon, a year, and more.

Planetary Service Wavespell

Each of the 13 Moons of the year make up a Planetary Service Wavespell. The Planetary Service Wavespell is for you to determine your action and adventure for the year.

Planetary Service is the basis of the new time. Ask not what you can do for your country, but what you can do for your planet. New groups of planetary servers are needed to transcend dogmas of money, nationalism, and sectarianism of every kind, who yet understand the fundamentally spiritual nature and divine unity of all creation. The Earth is recruiting now for duty, jump in at any time.

- Moon 1.** Identify Purpose. What is my goal?
- Moon 2.** Identify Challenge. What are the obstacles?
- Moon 3.** Identify Service. How can the goal be obtained?
- Moon 4.** Identify Form. What is the form of the action?
- Moon 5.** Take Command. Gather resources.
- Moon 6.** Command Equality. Administer challenge.
- Moon 7.** Command Attunement. Attune service to action.
- Moon 8.** Command Integrity. Action attains form.
- Moon 9.** Formalize Action. Action set in motion.
- Moon 10.** Manifest Challenge. Action and challenge meet.
- Moon 11.** Liberation of Service. Action dissolves service.
- Moon 12.** Cooperation of Form. Round table meets, past action formalized, future action prepared.
- Moon 13.** Take Magic Flight. Magnetic return.

I am in favor of a standardized calendar for the whole world, just as I am in favor of uniform coinage for all countries, and a supplementary artificial language (like Esperanto, for example) for all peoples.

I have been informed of, and I welcome, the international movement for calendar reform... I am always ready to endorse any honest movement which will help to unify the peoples of the world.

Magnetic Bat brings first moon of purpose.
What is my purpose?
Magnetic Bat unifies purpose.

The graphic to the left shows a sequence of dates starting on November 10, 2003. You can find that day on this years calendar by turning to page 28. There, on the Self-Existing Moon day 24 you will also see the little symbol of the 🐉 Red Dragon. That is the Seal of the day.

Since there is one dot above the Dragon, you know that it is a Red Magnetic Dragon, the first Tone of a thirteen-day Wavspell.

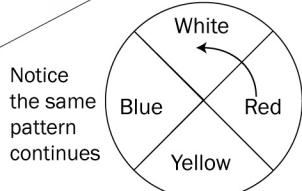

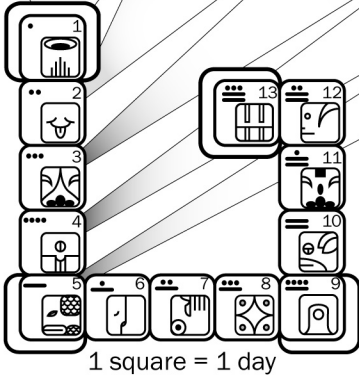

On the calendar, follow the Seals for November 11th, 12th, etc. and you will notice they follow the following order. 🐉 Red Dragon is followed by 🌬 White Wind, then 🌃 Blue Night, etc.

If you continue following the days, when you turn the page to the Overtone Moon you will notice the 13 Skywalker, on Sunday, November 22 is followed by 1 Wizard on Monday, November 23. The one dot tells you a new Wavspell starts on November 23, but notice that the new Wavspell begins with the White Wizard, not the Red Dragon.

This is because there are 13 Tones, but there are 20 Seals. At the end of 13 Tones a new Wavspell begins. When we reach the Sun seal, the twentieth seal, we start again at Dragon. This combination of 13 Tones and 20 Seals makes 260 different possibilities.

The Thirteen Day Wavespell

Red Magnetic Dragon White Lunar Wind Blue Electric Night Yellow Self-Existing Seed Red Overtone Serpent

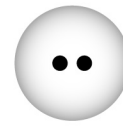

Notice the same pattern continues

Also notice that the 1,5,9, and 13 Tones are all red.

1 square = 1 day

The thirteen Kin Wavespell doesn't just measure a year., it also measures cycles of thirteen days. The 13 Moon Calendar has two interlocking cycles of time, a calendar of 365 days, the time it takes the Earth to go around the sun, and a calendar of 260 days.

260 Kin Journey Board

The entire 260 kin Harmonic Module can also be expressed with 20 Wavespells. This is called the Dreamspell Journey Board.

Each set of four Wavespells is called a Castle. The Journey Board starts in the Red Eastern Castle with the Red Magnetic Dragon and always moves counter-clockwise. Once the four Wavespells are completed in the Red Castle you move on to the White Castle. You continue moving counterclockwise until you reach the center Green Castle.

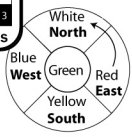

Find the Red Magnetic Dragon in the Red Eastern Castle on the Journey Board. That is where the 260 kin Harmonic Module Begins.

20 Seals, 13 Tones, 260 Combinations

The swastika, though given a bad reputation, is actually a universal symbol. The swastika is the ancient symbol of the teachings of Lord Buddha. In the beginning no images of Buddha were made, his last words being, "Be a lamp and refuge unto yourself, look to no outer authority except yourself!" This is why the oldest images of Buddha were footprints. The swastika has been used for over 3,000 years by the Celtic, Hindu, and Navajo peoples.

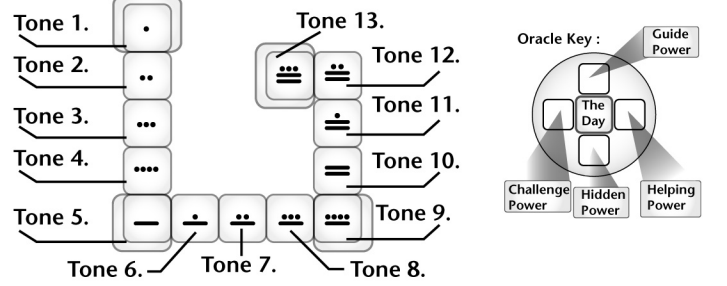

You will notice each 1 Tone starts a new Wavespell, and each time it is a Red Solar Seal a new Castle begins. Refer to page 8 for the colors of the 20 Solar Seals.

The Solar Seals, the Wavespells, and the Castles always move in a counter-clockwise direction starting with the color red, in the east.

The Destiny Oracle

Your Destiny Oracle

Using the Destiny Oracle Board, find your Galactic Signature or today's Solar Seal. The Seals surrounding that central Seal make up the Destiny Oracle.

The Analog, or Helping Power is shown to the right; the Antipode, or Challenge Power is to the left; the Occult, or Hidden Power is shown below. The blank space represents the Guide Power. The law for determining the Guide Power is as follows:

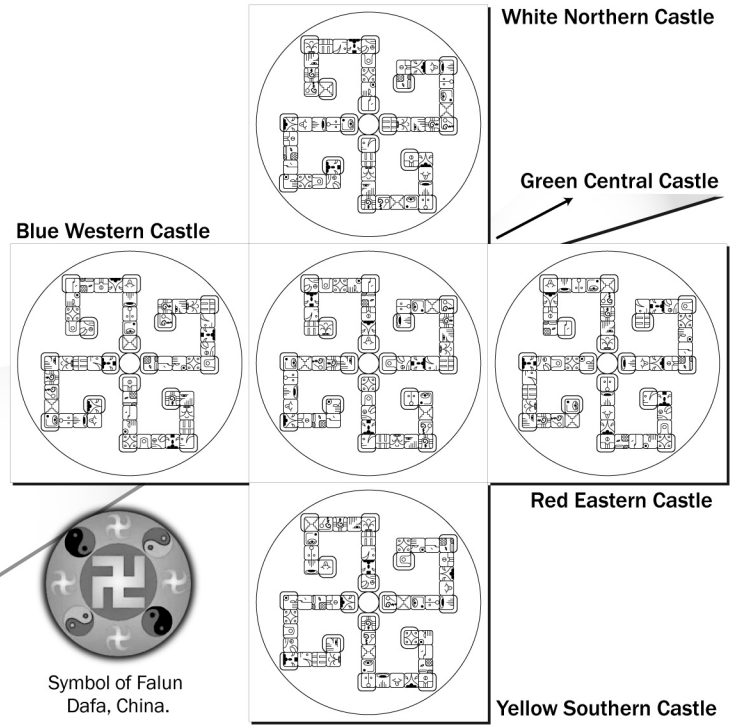

If the daily destiny kin is coded by the galactic tones:

- 1, 6, 11 Use the same solar seal as the destiny kin
- 2, 7, 12 +12 to the solar seal of the destiny kin
- 3, 8, 13 +4 to the solar seal of the destiny kin
- 4, 9 -4 from the solar seal of the destiny kin
- 5, 10 +8 to the solar seal of the destiny kin

For example, if the day is November 10 we see the Red Dragon seal, with tone **1 (Magnetic)**. Tones 1, 6, and 11 are guided by the same solar seal as the destiny kin, so the guide for November 10 is the Red Dragon. Any day with tones 1, 6, and 11 is "guided by its own power doubled."

For another example see January 8, 2004. The solar seal shown is the Yellow Sun, with tone **8 (Galactic)**. For Tone 8 we add 4 to the solar seal; Yellow Sun plus four solar seals gives us the Yellow Seed. Yellow Galactic Sun is guided by Yellow Seed.

Find the Galactic Signatures of friends and family. Using these keys, and by following the 13 Moon Calendar day-by-day you can step fully into the New Time.

- The Five Castles of the 260 kin Dreamspell Journey Board**
1. Red Eastern Castle of Turning. Court of Birth : Initiate Seed.
 2. White Northern Castle of Crossing. Court of Death : Refine Warrior.
 3. Blue Western Castle of Burning. Court of Magic : Transform Star.
 4. Yellow Southern Castle of Giving. Court of Intelligence : Ripen Sun.
 5. Green Central Castle of Enchantment. Court of the Matrix : Synchronize Human.

Earth Families

In the 13 Moon Calendar, depending on your Solar Seal, each person is in one of five Earth Families.

This does not mean that you replace or neglect your original family, but all the people in your Earth Family pass through the same 52-year sequence Destiny Path. If you find your birthday on this year's 13 Moon Calendar unless you are 52 years old you will find that your birthday falls on a day different than your Galactic Signature. Your birthday will always be on one of the four Solar Seals of your Earth Family. Each person who is in your Earth Family follows the same 52-year progression as you, but they start on different Galactic Signatures. You can find out more about this at www.tortuga.com or with the Dreamspell boxed kit.

Call of the Earth Families

- Polar kin sound the Chromatics
- Cardinal kin establish the Genesis
- Core kin mine the tunnels
- Signal kin unravel the mystery
- Gateway kin open the portals

Which is your family?
Which is your way?

You will notice that all people in the no dot, or Polar Earth Family have Solar Seal numbers made with only bars (or zero) in Galactic Notation, the one dot Cardinal Family is all made of Solar Seal numbers with one dot on top, etc.

Find your Earth Family!
